

Attachment1.

**LIST OF ANIMALS AND THEIR PRODUCTS THAT ARE PROHIBITED FROM BEING IMPORTED FROM COUNTRIES/REGIONS WHERE ANIMAL DISEASES ARE ENDEMIC**

**(7/02/2022 update)**

Continent	Country or region	Plague	Name of prohibited goods and date of ban/announcement	
Asia	Afghanistan	Foot-and-mouth disease	Cloven hooved animals and their products	
		Avian Influenza	Poultry and its products	
	Myanmar	Foot-and-mouth disease	Cloven hooved animals and their products	
		African swine fever	Pigs, wild boars and their products	
		Avian Influenza	Poultry and its products	
		Infection with lumpy skin disease virus disease	Cattle and related products	
	Pakistan	Foot-and-mouth disease	Cloven hooved animals and their products	
		Avian Influenza	Poultry and its products	
	Bhutan	Foot-and-mouth disease	Cloven hooved animals and their products	
		Sheep pox and goat pox	Sheep, goats and related products	
		Infection with lumpy skin disease virus disease	Cattle and related products (derived from products that have not been processed or processed but may still transmit disease)	
		African swine fever	Pigs, wild boars and their products	
		Swine fever	Pigs, wild boars and their products	
		Avian Influenza	Poultry and its products	
	Laos	Foot-and-mouth disease		Cloven hooved animals and their products (except for some areas in Mengxin County, Nanta Province, Laos, please refer to the Announcement No. 7 of 2021 of the Ministry of Agriculture and Rural Affairs of the General Administration of Customs for details)
			Avian Influenza	Poultry and its products
			Infection with lumpy skin disease virus disease	Cattle and related products
			African swine fever	Pigs, wild boars and their products
	Indonesia		African swine fever	Pigs, wild boars and their products

		Avian Influenza	Poultry and its products
Nepal		Foot-and-mouth disease	Cloven hoofed animals and their products
		Avian Influenza	Poultry and its products
Sri Lanka		Infection with lumpy skin disease virus disease	Cattle and related products
		Infection with lumpy skin disease virus disease	Cattle and related products
Bangladesh		Avian Influenza	Poultry and its products
		Infection with lumpy skin disease virus disease	Cattle and related products
India		Foot-and-mouth disease	Cloven hoofed animals and their products
		Avian Influenza	Poultry and its products
		Infection with lumpy skin disease virus disease	Cattle and related products (derived from products that have not been processed or processed but may still spread disease)
		African swine fever	Pigs, wild boars and their products
Vietnam		Foot-and-mouth disease	Cloven hoofed animals and their products
		African swine fever	Pigs, wild boars and their products
		Infection with lumpy skin disease virus disease	Cattle and related products (derived from products that have not been processed or processed but may still transmit disease)
		Avian Influenza	Poultry and its products
China Hong Kong		Foot-and-mouth disease	Cloven hoofed animals and their products
North Korea		Avian Influenza	Poultry and its products
		Foot-and-mouth disease	Cloven hoofed animals and their products
		African swine fever	Pigs, wild boars and their products
Thailand		Foot-and-mouth disease	Cloven hoofed animals and their products
		African Horse Fever	Equine animals and related products
		Peste des petits ruminants	Sheep, goats and their products
		Infection with lumpy skin disease virus disease	Cattle and related products (derived from products that have not been processed or processed but may still transmit disease)
		African swine fever	Pigs, wild boars and their products
Cambodia		Avian Influenza	Poultry and its products
		Infection with lumpy skin	Cattle and related products

		disease virus disease	(derived from products that have not been processed or processed but may still transmit disease)
		African swine fever	Pigs, wild boars and their products
	Bahrain	Foot-and-mouth disease	Cloven hooved animals and their products
	Kuwait	Foot-and-mouth disease	Cloven hooved animals and their products
		Avian Influenza	Poultry and its products
		Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
	Israel	Foot-and-mouth disease	Cloven hooved animals and their products
		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Newcastle disease	Poultry and its products
		Avian Influenza	Poultry and its products
		Peste des petits ruminants	Sheep, goats and their products
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products *
		Sheep pox and goat pox	Sheep, goats and related products
		Malaysia	Japanese Encephalitis
	Foot-and-mouth disease		Cloven hooved animals and their products
	Avian Influenza		Poultry and related products
	African swine fever		Pigs, wild boars and their products
	Infection with lumpy skin disease virus disease		Cattle and related products (derived from products that have not been processed or processed but may still transmit disease)
	African Horse Fever		Equine animals and related products
	Kyrgyzstan	Foot-and-mouth disease	Cloven hooved animals and their products
	Turkmenistan	Foot-and-mouth disease	Cloven hooved animals and their products
	Jordan	Avian Influenza	Poultry and its products
		Foot-and-mouth disease	Cloven hooved animals and their products
		Peste des petits ruminants	Sheep, goats and their products

		Sheep pox and goat pox	Sheep, goats and their products
Iran		Foot-and-mouth disease	Cloven hoofed animals and their products
		Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
		Highly pathogenic avian influenza	Poultry and its products
Iraq		Avian Influenza	Poultry and its products
Philippines		Foot-and-mouth disease	Cloven hoofed animals and their products
		Reston Ebola virus	Pig and its products
		African swine fever	Pigs, wild boars and their products
		Highly pathogenic avian influenza	Poultry and related products
Kazakhstan		Avian Influenza	Poultry and its products
		Sheep pox and goat pox	Sheep, goats and their products
Turkey		Foot-and-mouth disease	Cloven hoofed animals and their products
		Blue tongue disease	Sheep, cattle and their products
Japan		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casing) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein material
		Classical swine fever	Pigs, wild boars and their products
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products * (except deboned beef under 30 months of age)
		Avian Influenza	Poultry and its products
Mongolia		Foot-and-mouth disease	Cloven hoofed animals and related products ( except for some areas in Zamyn-Uud City, Eastern Gobi Province )
		African swine fever	Pigs, wild boars and their products
		Avian Influenza	Poultry and its products
		Swine fever	Pigs, wild boars and their products
		Peste des petits ruminants	Cattle, sheep and related products (outside some areas of Zamyn-Uud City, Eastern Gobi Province )
		Infection with lumpy skin disease virus disease	Cattle and related products (products originating from cattle that are unprocessed or processed but may still spread epidemic diseases)
Tajikistan		Foot-and-mouth disease	Cloven hoofed animals and their

			products
	Azerbaijan	Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
		Infection with lumpy skin disease virus disease	Cattle and related products
		Avian Influenza	Poultry and its products
		African swine fever	Pigs, wild boars and their products
	Saudi Arabia	Foot-and-mouth disease	Cloven hoofed animals and their products
		Infection with lumpy skin disease virus disease	Cattle and related products
		Avian Influenza	Poultry and its products
	Korea	Avian Influenza	Poultry and its products
		Classical swine fever	Pig and its products
		Foot-and-mouth disease	Cloven hoofed animals and their products
		African swine fever	Pigs, wild boars and their products
	Armenia	African swine fever	Pigs, wild boars and their products
Oman	Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products *	
East Timor	African swine fever	Pigs, wild boars and their products	
Europe	Lithuania	African swine fever	Pigs, wild boars and their products
		Highly pathogenic avian influenza	Poultry and its products (derived from unprocessed poultry or products that may still transmit disease despite being processed)
	Estonia	African swine fever	Pigs, wild boars and their products
	Italy	Schmallenberg disease	Cattle embryos, sheep semen, sheep embryos (directly or indirectly inhibit input 2011 Year 6 Month 1 in the future production of bovine semen, bovine embryos, sheep semen, sheep embryos)
		Swine vesicular disease	Pig and its products. Liguria (Liguria), Piedmont (Piemonte), Valle - d'Aosta (Valle d'Aosta), Lombardy (Lombardia), Trentino - Alto Adige (Trentino-Alto Adige), Vladimir Friuli – Venezia Giulia (Friuli-Venezia Giulia), Veneto (Veneto), Emilia - Romagna (Emilia - Romagna), Marche (Marche) and other 9 major areas (autonomous region) are excluded.
		Avian Influenza	Poultry and its products
	Newcastle disease	Poultry and related product (only in	

		Tuscany)
	Bovine spongiform encephalopathy (mad cow disease)	Cattle and related products * (except deboned beef under 30 months of age)
	African swine fever	Only for Sardinia pigs and their products
Malta	African swine fever	Pig and its products
Portugal	Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products *(except deboned beef under 30 months of age)
	Low pathogenic avian influenza	Poultry and its products (limited to Alentejo province)
	Newcastle disease	Poultry and related products ( 2017 Year 7 Month 14 release date , limited Coimbra District)
	Scrapie	Sheep and related products
Spain	Schmallenberg disease	Cattle semen, embryos cattle, sheep semen, sheep embryos (directly or indirectly inhibit input 2011 Year 6 Month 1 in the future production of bovine semen, bovine embryos, sheep semen, sheep embryos)
	Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products *
	Blue tongue disease	Ruminants and related products
	Highly pathogenic avian influenza	Poultry and related products
Croatia	Classical swine fever	Pig and its products
	Avian Influenza	Poultry and its products
Bulgaria	Classical swine fever	Pig and its products
	African swine fever	Pigs, wild boars and their products
	Avian Influenza	Poultry and its products
	Newcastle disease	Poultry and its products (limited to Kardzhali and Vidin )
	Peste des petits ruminants	Cattle, sheep and related products
	Foot-and-mouth disease	Cloven hoofed animals and their products
United Kingdom	Schmallenberg disease	Bovine embryo, sheep semen, sheep embryo(Directly or indirectly inhibit input 2011 Year 6 Month 1 in the future production of cattle embryos sheep semen, sheep embryos)

		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products * (except deboned beef under 30 months of age)
		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Highly pathogenic avian influenza	Poultry and its products
		Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
		Low pathogenic avian influenza	Poultry and its products (Hampshire only)
	Netherlands	Schmallenberg disease	Bovine embryo, sheep semen, sheep embryo (Directly or indirectly inhibit input 2011 Year 6 Month 1 in the future production of cattle embryos sheep semen, sheep embryos)
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products * (except veal under 12 months old)
		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Highly pathogenic avian influenza	Poultry and its products
	Belgium	Schmallenberg disease	Bovine embryo, sheep semen, sheep embryo (Directly or indirectly inhibit input 2011 Year 6 Month 1 in the future production of cattle embryos sheep semen, sheep embryos)
		African swine fever	Pigs, wild boars and their products
		Classical swine fever	Wild boar and its products
		Highly pathogenic avian influenza	Poultry and its products ( derived from unprocessed poultry or products that may still transmit disease despite being processed )
		Newcastle disease	Poultry and its products (limited to East Flanders and West Flanders)
		Bovine spongiform	Cattle and related products*

แปลและเรียบเรียงโดยสำนักงานที่ปรึกษาการเกษตรต่างประเทศ ประจำกรุงปักกิ่ง

		encephalopathy (Mad Cow Disease)	
		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
	Norway	Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products*
		Highly pathogenic avian influenza	Poultry and its products (products derived from unprocessed poultry or processed poultry that may still spread epidemic diseases)
	Cyprus	Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Foot-and-mouth disease	Cloven hoofed animals and their products
		Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
	Iceland	Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
	Sweden	Bovine spongiform encephalopathy	Cattle and related products*
		Schmallenberg disease	Cattle embryos, sheep semen, sheep embryos (directly or indirectly inhibit input 2011 Year 6 Month 1 in the future production of cattle embryos sheep semen, sheep embryos)

		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Newcastle disease	Poultry and its products (only in Gotland and Oostgötland)
		Poultry highly pathogenic avian influenza	Poultry and its products
	France	Schmallenberg disease	Cattle embryos, sheep semen, sheep embryos (directly or indirectly inhibit input 2011 Year 6 Month 1 in the future production of cattle embryos)
		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products * (except deboned beef under 30 months of age)
		Highly pathogenic avian influenza	Poultry and its products ( derived from unprocessed poultry or products that may still transmit Disease despite being processed )
		Newcastle disease	Poultry and its products (only in Morbihan)
		Denmark	Bovine spongiform encephalopathy (Mad Cow Disease)
	Schmallenberg disease		Cattle embryos, sheep semen, sheep embryos (directly or indirectly inhibit input 2011 Year 6 Month 1 in the future production of cattle Embryos sheep semen, sheep embryos)
	Poultry highly pathogenic avian influenza		Poultry and its products
	Highly pathogenic avian		Ornamental birds, wild birds and their products
	Georgia		Wild migratory bird avian influenza
		African swine fever	Pigs, wild boars and their products

		Infection with lumpy skin disease virus disease	Cattle and related products
	Montenegro	Infection with lumpy skin disease virus disease	Cattle and related products
	Serbia	Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
		Poultry highly pathogenic avian influenza	Poultry and related products
		Infection with lumpy skin disease virus disease	Cattle and related products
		African swine fever	Pigs, wild boars and their products
	Ireland	Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (and Animal feed containing sheep protein)
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products * (except deboned beef under 30 months of age)
		Highly pathogenic avian influenza	Poultry and its products (derived from unprocessed poultry or products that may still transmit disease despite being processed )
	Switzerland	Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Blue tongue disease	Ruminants and related products (derived from ruminant animals that have not been processed or processed but may still transmit disease)
		Schmallenberg disease	Cattle semen, embryos cattle, sheep semen, sheep embryos (directly or indirectly inhibit input 01.06.2011 in the future production of bovine semen, bovine mbryos, Sheep semen, sheep embryos)
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products *
		Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
		Germany	Schmallenberg disease

			indirectly inhibit input 01.06.2011 after the production of cattle embryos sheep semen, sheep embryos)
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products*
		Blue tongue disease	Ruminants and related products (derived from ruminant animals that have not been processed or processed but may still transmit disease)
		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Highly pathogenic avian influenza	Poultry and related products
		African swine fever	Pigs, wild boars and their products
	Luxembourg	Schmallenberg disease	Cattle semen, embryos cattle, sheep semen, sheep embryos (directly or indirectly inhibit input 2011 Year 6 Month 1 in the future production of bovine semen, bovine embryos, sheep semen, sheep embryos)
		Newcastle disease	Poultry and its products
		Blue tongue disease	Ruminants and related products (derived from ruminant animals that have not been processed or processed but may still transmit disease)
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products *
	Czech Republic	Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
		Avian Influenza	Poultry and its products
		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Bovine spongiform	Cattle and related products *

		encephalopathy (Mad Cow Disease)	(except deboned beef under 30 months of age)
		African swine fever	Pig and its products
	Russia	Foot-and-mouth disease	Cloven hooved animals and their products ( except for 48 regions including Arkhangelsk Oblast, Russia. For details, please refer to the General Administration of Customs Announcement No. 99 of 2019 )
		Sheep pox and goat pox	Sheep, goats and their products
		Avian Influenza	Bird watching and wild birds
		Poultry highly pathogenic avian influenza	Poultry and related products (except poultry and related products that meet the standards for avian influenza biological isolation zoning)
		Newcastle disease	Poultry and related products (Krasnodar Territory only)
		African swine fever	Pigs, wild boars and their products
		Infection with lumpy skin disease virus disease	Cattle and its products
	Ukraine	African swine fever	Pigs, wild boars and their products
		Highly pathogenic avian influenza	Poultry and related products
	Liechtenstein	Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products*
	Slovakia	Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products*
		African swine fever	Pigs, wild boars and their products
		Highly pathogenic avian influenza	Poultry and related products
	Slovenia	Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products *
		Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
		Highly pathogenic avian influenza	Poultry and its products (products derived from unprocessed poultry or processed poultry that may still spread epidemic diseases)
	Austria	Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products *
		Newcastle disease	Poultry and its products

		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
		Poultry highly pathogenic avian influenza	Poultry and related products
Hungary		African swine fever	Pigs, wild boars and their products
		Highly pathogenic avian influenza	Poultry and related products
Latvia		African swine fever	Pigs, wild boars and their products
Bosnia and Herzegovina		Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
Poland		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products *
		African swine fever	Pigs, wild boars and their products
		Highly pathogenic avian influenza	Poultry and related products
Finland		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products *
		Scrapie	Sheep and its products
Romania		Scrapie	Sheep and its products
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products *
		Avian Influenza	Poultry and its products
		Newcastle disease	Poultry and its products (only in Yjalomica County)
		African swine fever	Pigs and related products
Belarus		African swine fever	Pig and its products
Greece		Infection with lumpy skin disease virus disease	Cattle and its products
		African swine fever	Pig and its products
Moldova		African swine fever	Pigs, wild boars and their products
		Highly pathogenic avian influenza	Poultry and related products
North Macedonia		Newcastle disease	Poultry and related products ( Skopje District only )
		African swine fever	Pigs, wild boars and their products

	Albania	Avian Influenza	Poultry and its products
		Infection with lumpy skin disease virus disease	Cattle and its products
The whole EU	All EU countries	Bovine spongiform encephalopathy (Mad Cow Disease)	Ruminant-derived feed
Africa	Djibouti	Avian Influenza	Poultry and its products
		Infection with lumpy skin disease virus disease	Cattle and related products
	Sudan	Avian Influenza	Poultry and its products
	Chad	African Horse Fever	Equine animals and related products
	Swaziland	African Horse Fever	Equine animals and related products
	Togo	Avian Influenza	Poultry and its products
	Mauritius	Foot-and-mouth disease	Cloven-hoofed animals and related products (derived from unprocessed cloven-hoofed animals or products that may still transmit disease despite being processed)
	Malawi	Foot-and-mouth disease	Cloven hoofed animals and their products
	Niger	Avian Influenza	Poultry and its products
	Egypt	Wild migratory bird avian influenza	Ornamental birds, wild birds and their products
		Foot-and-mouth disease	Cloven hoofed animals and their products
		Avian Influenza	Poultry and its products
	Algeria	Foot-and-mouth disease	Cloven hoofed animals and their products
		Peste des petits ruminants	Sheep, goats and related products (derived from Sheep and goats that are not processed or processed but may still transmit disease)
		Highly pathogenic avian influenza	Poultry and its products (derived from unprocessed poultry or products that may still transmit disease despite being processed )
	Tunisia	Foot-and-mouth disease	Cloven hoofed animals and their products
		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep

		protein
Morocco	Foot-and-mouth disease	Cloven hooved animals and their products
	Small ruminant disease	Sheep, goats and their related products (products originating from sheep and goats that are unprocessed or processed but may still spread epidemic diseases)
Burkina Faso	Avian Influenza	Poultry and its products
Guinea	Foot-and-mouth disease	Cloven hooved animals and their products
	Ebola disease	Primates such as monkeys and orangutans
Zambia	Foot-and-mouth disease	Cloven hooved animals and their products
Botswana	African swine fever	Pig and its products
	Foot-and-mouth disease	Cattle and their products (except for some areas, see the General Administration of Customs of agriculture and rural Announcement 2020 Year 27 number)
	Highly pathogenic avian influenza	Poultry and its products (derived from unprocessed poultry or products that may still transmit disease despite being processed)
Madagascar	African swine fever	Pig and its products
Senegal	African swine fever	Pig and its products
	Highly pathogenic avian influenza	Poultry and its products (derived from unprocessed poultry or products that may still transmit disease despite being processed)
Nigeria	Avian Influenza	Poultry and its products
Ghana	African swine fever	Pig and its products
	Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
	Avian Influenza	Poultry and its products
South Africa	Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein

		African Horse Fever	Equine animals and their products
		Avian Influenza	Poultry and its products
		Foot-and-mouth disease	Cloven-hoofed animals and Related products ( 1 meet OIE except Technical Manuals related to foot and mouth Disease virus inactivation technical requirements and animal hides and wool provisions of Chinese laws and regulations; 2. General Administration of Customs Ministry of Agriculture and Rural Bulletin 2019 Year 122 except No. ban areas )
		Infection with lumpy skin disease virus disease	Cattle and related products
	Namibia	Foot-and-mouth disease	Cloven-hoofed animals and their products (Namibia veterinary warning fence (Veterinary Cordon Fence , VCF ) south of the region, including Otjozondjupa , Omaheke , Khomas , Erongo , Hardap , Karas and other 6 provinces, as well as Kunene and Oshikoto provincial OIE Recognized southern region except)
		Infection with lumpy skin disease virus disease	Cattle and related products
		Bovine infectious pleuropneumonia	Products originating from cattle that are unprocessed or processed but are still likely to spread epidemic diseases) (except in the south of veterinary cordon fence (VCF))
	Zimbabwe	African Horse Fever	Equine animals and their products
		Avian Influenza	Poultry and its products
		Foot-and-mouth disease	Cloven hoofed animals and their products
	Congo (DRC) (Zaire)	Ebola disease	Primates such as monkeys and orangutans
	Gabon	Ebola disease	Primates such as monkeys and orangutans
	Cote d'Ivoire	Avian Influenza	Poultry and its products
	Cameroon	Avian Influenza	Poultry and its products
Rwanda	Foot-and-mouth disease	Cloven hoofed animals and related products	
Mozambique	Foot-and-mouth disease	Cloven hoofed animals and related	

			products
	Mali	Highly pathogenic avian influenza	Poultry and its products (products derived from unprocessed poultry or processed poultry that may still spread epidemic diseases)
	Lesotho	Highly pathogenic avian influenza	Poultry and its products (products derived from unprocessed poultry or processed poultry that may still spread epidemic diseases)
	Benin	Highly pathogenic avian influenza	Poultry and its products (products derived from unprocessed poultry or processed poultry that may still spread epidemic diseases)
	All of Africa	African swine fever	Pig and its products
Monkeypox		Prairie dogs, Gambian rats, squirrels and other rodents, hares and their products	
Oceania	Australia	Low pathogenic avian influenza	Poultry and related products (only In Victoria)
		Highly pathogenic avian influenza	Poultry and related products
	Papua New Guinea	African swine fever	Pigs, wild boars and their products
America	Mexico	Highly pathogenic avian influenza	Poultry and related products
		Newcastle disease	Poultry and its products
	United States	Monkeypox	Prairie dogs, Gambian rats, squirrels and other rodents, hares and their products
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products * (since 2006 Year 6 Month 29 date to resume imports of US 30 months of age boned beef cattle, 2020 Year 2 Month 19 days to lift the import of US beef and beefproducts-month-old restrictions, the lifting of the United States containing ruminant Restrictions on ingredient pet food.)
		Rabbit hemorrhagic disease	Rabbit and its products (only in New York, Iowa, Utah, Illinois)
		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
	Canada	Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs

			(including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Bluetongue disease, deer epidemic hemorrhagic fever	Cattle, in vitro fertilization of bovine embryos from slaughterhouses, sheep, sheep semen, sheep embryos (Aura limit the valley; around 25 km area may be 10 dated.1 to the following year. 4 dated.1 outlet day)
		Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products* (except deboned beef under 30 months of age)
	Brazil	Bovine spongiform encephalopathy (Mad Cow Disease)	Cattle and related products* (except deboned beef under 30 months of age)
		Foot-and-mouth disease	Cloven-hoofed animals and their products [Santa Catarina state , Acre state , Bahia state ( not including the setting and monitoring of the buffer zone ), Espírito Santo state , Goiás State , Federal District ( Distrito Federal ) , Minas Gerais state , Mato Grosso state , Mato Grosso do Sul State ( excluding the set buffer zone and monitoring area ), Paraná State , Rondônia State ( excluding the set buffer zone and monitoring area ), Rio Grande do Sul State , Rio de Janeiro State , Sergipe State , São Paulo State , Tocantins State ( excluding the set buffer zone and monitoring area ) and Pará State, except for the central and southern regions recognized by OIE ]
		Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
	Argentina	Foot-and-mouth disease	Cloven hooved animals and their products (limited to the border area of northern Argentina with a length of approximately 2,200 kilometers and a width of 15 kilometers)

	Colombia	Scrapie	Sheep, sheep embryos, sheep semen, sheep internal organs (including casings) and their products, meat and bone meal, bone meal, sheep fat (oil) and animal feed containing sheep protein
		Classical swine fever	Pig and its products
		Foot-and-mouth disease	Cloven hoofed animals and their products
	Ecuador	Foot-and-mouth disease	Cloven hoofed animals and their products
	Paraguay	Foot-and-mouth disease	Cloven hoofed animals and their products
	Venezuela	Foot-and-mouth disease	Cloven hoofed animals and their products
	Peru	Foot-and-mouth disease	Cloven hoofed animals and their products
	Dominica	Low pathogenic avian influenza	Poultry and related products (only in Platagong Province)
		African swine fever	Pigs, wild boars and their products
	Bolivia	Newcastle disease	Poultry and its products (La Paz province only)
Haiti	African swine fever	Pigs, wild boars and their products	

#### หมายเหตุ
